## **Objective**

The objective of this hybrid seminar is to offer training on the applicability of the EU legislative instruments in civil cases. The different Regulations facilitating the handling of cross-border cases will be presented and dealt with in a practice-oriented way at an introductory level, which makes it suitable for participants who have no prior or little experience in this field.

## **Methodology**

This training event is conceived as a workshop based on solving coherent case studies, thus ensuring the active involvement of participants and a continuous exchange of knowledge and best practice. The training materials have been developed by renowned EU experts and aim to aid court staff and bailiffs in actively applying the EU *acquis* in the area of Civil Justice. The case studies include exercises that require participants to visit and use the forms/tools available on the e-Justice Portal, and to search for the relevant case law by using the European case-law search engine. Discussions in the context of digitalisation in judicial cooperation are thus actively promoted.

## **Who should attend?**

Court staff and bailiffs from EU Member States who need to apply EU law procedures to fulfil judicial or procedural functions. Participation is only possible upon nomination by the project partners.
